

473 ZILLERGRUND

Scenic view and unbelievable panorama of the surrounding peaks and the impounding reservoirs.

Take the canyon road (Schluchtstraße) from Mayrhofen to Zillergrund. At the water basin, the route leads to the right past Gasthof Zillergrund.

After a few metres, you will go back to the other side of the valley and reach a toll booth. From hereon it is straight ahead into Zillergrund, passing a number of guesthouses on the way. Only a limited number of vehicles are allowed to drive into the valley every day, which ensures pleasant traffic levels. After around 10 kilometres you will arrive at chapel in Häusling, where a number of sub-power stations are located. Keep riding into the valley and after another five kilometres, the Sundergrund Valley opens up to the right. Keep going straight ahead from "der Au". After two bends and a few minutes of pedalling, you will arrive at Bärenbad. Once there, you will see the Zillergrund Reservoir dam wall for the first time.
